

P.O. BOX 1202, ELBURN, IL 60119

PREMIUM COLLECTOR'S SERIES

The Premium Collector's Series is Accurate Finishing's own line of limited run, custom decorated car kits. Each is offered in three different road numbers, packed as either single kits or two packs with different road numbers. Production is limited to only 700 pieces, each individually labelled with a unique number.

Our initial intent was to do "fallen flags", but soon expanded to cover small and medium sized railroads and modern short lines as well. We select candidates for Premium Collector's Series using several deciding factors:

- * Colorful or unusual paint job.
- * Interesting or unusual lettering or service.
- * A road name not currently offered by other producers.

In all cases we strive to use a car kit that is correct for the prototype we are doing; if a correct kit isn't available, we move on to another project.

William K. Walthers Inc. has purchased exclusive rights to our Premium Collector's Series and therefore our kits are readily available to dealers throughout the country. With the exception of a display car our entire run is shipped to Walthers upon completion. Your dealer can get them from Walthers.
